SUMMARY

Honest, dependable, hard-working Full Stack Web Developer. Received a Certificate in Full Stack Web Development from the Georgia Institute of Technology, where I gained skills in JavaScript, HTML, CSS, Node.js, React.js, MySQL and MongoDB. Demonstrates strong problem-solving qualities, adaptability, and excellent interpersonal skills. Applied aspects of agile development in a recent project where I worked on a team of two to develop a MERN stack application that creates a collaborative music queue.
